# INDUSTRIAL ENGINEERING MASTER'S DEGREE

[online.k-state.edu/programs/industrial-engineering-masters](https://online.k-state.edu/programs/industrial-engineering-masters)

## PROGRAM INFORMATION

Industrial engineers share a common goal of saving time and money by eliminating wastefulness and increasing efficiency. The online industrial engineering master's degree offers the best of both worlds: an education in both engineering and business.

Designed for working professionals, this online master's degree is offered 100% online but does require a trip to the Manhattan, Kansas, campus for an oral examination at the end of the program.

## ADMISSION REQUIREMENTS

- Bachelor's degree with a 3.0 minimum GPA in the final two years or approximately the last 60 credit hours
- Bachelor's degree in engineering, mathematics or physical science and versed in several of the basic areas of industrial engineering
- Nonindustrial engineering undergraduates may be required to take 6 credits of prerequisite courses

## CURRICULUM

30 credits

## CAREERS

Graduates of the industrial engineering master's degree program may be employed as a:

- data analyst
- industrial engineer
- logistics engineer
- operations and operations research engineer
- quality engineer
- safety engineer
- process control and integration engineer
- systems analyst
- production manager and consultant

## APPLICATION DEADLINES

- Applications are accepted year-round. Applicants should plan to apply within two to three months from the start of the semester. The fall semester begins in late August, the spring semester begins in late January and the summer semester begins in late May.
